Vulnerable employment for females has improved in Guinea-Bissau since 1991

Workers in vulnerable employment are the least likely to have formal work arrangements, social protection, and safety nets to guard against economic shocks; thus they are more likely to fall into poverty. Vulnerable employment among women is 77.5% and among men is 61.5% in Guinea-Bissau for 2022. The rate of vulnerable employment is lower for men and women in Guinea-Bissau compared to the average rate in Sub-Saharan Africa.
