Vulnerable employment for females has worsened in Sri Lanka since 1991

Workers in vulnerable employment are the least likely to have formal work arrangements, social protection, and safety nets to guard against economic shocks; thus they are more likely to fall into poverty. Vulnerable employment among women is 39.3% and among men is 39.8% in Sri Lanka for 2022. The rate of vulnerable employment is lower for men and women in Sri Lanka compared to the average rate in South Asia.
