Vulnerable employment for females has worsened in Timor-Leste since 1991

Workers in vulnerable employment are the least likely to have formal work arrangements, social protection, and safety nets to guard against economic shocks; thus they are more likely to fall into poverty. Vulnerable employment among women is 80% and among men is 54.2% in Timor-Leste for 2022. The rate of vulnerable employment is higher for men and women in Timor-Leste compared to the average rate in East Asia & Pacific.

92.5% of men and 86.6% of women owned a dwelling either alone or jointly in 2016

For women in particular, asset ownership is a source of economic empowerment and provides protection in the case of marital dissolution or abandonment. There is increasing evidence that ownership of property by women has positive consequences for women's empowerment, nutritional and health outcomes, and children's schooling.

House ownership status, by sex (% of population age 15-49)

Male

7.5% do not own a house

45.1% own a house alone

43.1% own a house jointly

4.3% own a house both alone and jointly

Female

13.4% do not own a house

35.6% own a house alone

48.6% own a house jointly

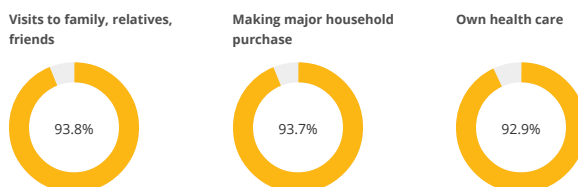

2.5% own a house both alone and jointly
