**Vulnerable employment for females has improved in Uganda since 1991**

Workers in vulnerable employment are the least likely to have formal work arrangements, social protection, and safety nets to guard against economic shocks; thus they are more likely to fall into poverty. Vulnerable employment among women is 81.4% and among men is 67.1% in Uganda for 2021. The rate of vulnerable employment is similar for men and women in Uganda compared to the average rate in Sub-Saharan Africa.
