3 women die per 100,000 live births due to pregnancy-related causes in Greece

The maternal mortality ratio in Greece has remained stagnant over the last 20 years roughly around 3. Maternal mortality in Greece is nearly the same as its regional average. Maternal mortality ratio is the number of women who die from pregnancy-related causes while pregnant or within 42 days of pregnancy termination per 100,000 live births.

Maternal mortality ratio (deaths per 100,000 live births)

7 of every 1,000 girls ages 15-19 gave birth in Greece in 2019

In Greece, the rate of adolescent fertility has remained roughly the same since 2010. The rate in 2019 was nearly the same as the average rate in its income group.

Adolescent fertility rate (births per 1,000 women ages 15-19)

93.3% of girls and 94.6% of boys complete lower secondary school in Greece as of 2019 data

The female rate in Greece is lower than both Europe & Central Asia and the high-income group. Lower secondary education completion rate measures how many children have completed the last grade of lower secondary education regardless of age completed.

Lower secondary completion rate, by sex (% of relevant age group)

Adult literacy in Greece is nearly the same among women and men (2018)

In Greece, both women and men have very high literacy rates. Adult literacy rate is the percentage of people ages 15 and above who can both read and write with understanding a short simple statement about their everyday life.

Adult literacy rate, by sex (% of people ages 15 and above)
In Greece, the labor force participation rate among females is 44.5% and among males is 60.4% for 2019.

The labor force participation rate is the proportion of the population ages 15 and older that is economically active. Since 1990, female labor force participation has increased. Compared with labor force participation in the high-income group, the gap between men and women is similar in Greece.

Vulnerable employment for females has improved in Greece since 1991.

Workers in vulnerable employment are the least likely to have formal work arrangements, social protection, and safety nets to guard against economic shocks; thus they are more likely to fall into poverty. Vulnerable employment among women is 21.8% and among men is 26.4% in Greece for 2019. The rate of vulnerable employment is higher for men and women in Greece compared to the average rate in Europe & Central Asia.
In Greece, women spend 2.6 times as much time on unpaid domestic and care work than men.

The data, expressed as a proportion of time in a day, measure the average time an individual spends on household provision of services for own consumption. In 2014, women in Greece spent 18.1% of their day and men spent 7% of their day on unpaid work. Data compiled from the most recent data point between 2010 and 2019.

In 2017, 84.5% of women and 86.4% of men in Greece had an account.

The female rate in Greece is higher than Europe & Central Asia but lower than the high-income group. Account ownership denotes the percentage of respondents who report having an account (by themselves or together with someone else) at a bank or another type of financial institution or report personally using a mobile money service in the past 12 months.

Data is not available for Greece for Share of business owners, by sex (% of total business owners).

Data is not available for Greece for House ownership status, by sex (% of population age 15-49).
21.7% of seats in national parliament were held by women in 2020 in Greece

Women in parliaments are the percentage of parliamentary seats in a single or lower chamber held by women. The proportion of seats held by women in Greece has increased since 2010. The current rate is lower than the average rate in high-income countries.

Women represented 29.8% of those employed in senior and middle management in 2019

The female share of employment in senior and middle management for Greece falls in the third quintile of all countries for which there are data. Data compiled from the most recent data point available between 2010 and 2020.
