Data is not available for the Marshall Islands for Maternal mortality ratio (deaths per 100,000 live births).

Data is not available for the Marshall Islands for Adolescent fertility rate (births per 1,000 women ages 15-19).

104.1% of girls and 91.5% of boys complete lower secondary school in the Marshall Islands as of 2020 data.

The gap in lower secondary completion rate between boys and girls, 12.6, is larger than the gap of the East Asia & Pacific aggregate, 2.8. Lower secondary education completion rate measures how many children have completed the last grade of lower secondary education regardless of age completed.

Lower secondary completion rate, by sex (% of relevant age group)
